Microboards' DVD PRO 10-Bay Tower

| Recorders | Dimensions (H x D x W, cm) | Ship Weight (kg) |
|-----------|----------------------------|------------------|
| 3         | 17 x 7.5 x 10.5            | 11.3             |
| 5         | 17.5 x 7.5 x 17            | 11.3             |
| 7         | 17.5 x 7.5 x 17            | 17.7             |
| 10        | 16.5 x 7.5 x 25            | 17.7             |

# Premium DVD Tower Copiers

Microboards' Premium DVD Copiers feature high-speed, industrial recorders that copy both DVD (18X) and CD (48X) formats. Microboards' tower duplicators use a unique high-quality controller exclusive to Microboards and that's why Microboards always supports the latest record speeds and has the best support in the industry!

## Verification Mode

Microboards towers support Bit-to-Bit Data Verification, ensuring a perfect burn every time (data disc only). For CD-Audio and CD-XA (Extra) a basic disc read check is performed.

## Two-Year Warranty

The standard warranty for Microboards towers is the industry's best! Our two-year limited warranty easily surpasses the industry's standard warranty.

## Configurations

Tower sizes include 1-to-3, 1-to-5, 1-to-7, and 1-to-10 units.

## Daisy-Chainable, Multi-Connectable Towers

Now available in Blu-ray! New multi-tower configurations allow multiple CopyWriter DVD towers to be daisy-chained together.

**DVD PRM NET-20** is a two-tower configuration daisy-chained together.

**DVD PRM NET-10** is an additional ten-recorder tower which includes cables to connect to other NET-20 or NET-10 systems.

If purchasing multiple NET-20 systems to connect together, an additional cable—3M-NET2-1.0—is required for each additional NET-20 system.
